SUMMARY

Computer Science Engineering student with experience in Python, Java, and web technologies. Developed an IoT-based security monitoring system using ESP32-CAM for real-time image capture and implemented Bluetooth communication for alerts. Additionally, built a machine learning model for electricity price prediction, involving data preprocessing, training, and visualization. Seeks to contribute technical skills in software development roles.

SKILLS

- Programming & Web Development:** Python, Java, HTML5, CSS3, JavaScript, Embedded C/C++
- AI & Machine Learning:** Pandas, NumPy, Scikit-learn, Matplotlib, Machine Learning
- IoT & Hardware:** ESP32-CAM, Bluetooth, PIR Sensor, IoT
- Cybersecurity & Networking:** Cryptography, Steganography, Data Encryption, TCP/IP, UDP, HTTP, OSI Model
- Tools & Version Control:** Git, Visual Studio Code, Postman
- Soft Skills:** Problem Solving, Team Collaboration, Communication Skills, Adaptability, Time Management

WORK EXPERIENCE

Edunet Foundation (AICTE Collaboration)	
Cyber Security Intern	Jun 2025 - Jul 2025
- Learned cybersecurity concepts including network security, ethical hacking, and cyber laws. - Gained knowledge in identifying and mitigating security threats.	
Edunet Foundation (AICTE Collaboration)	
Artificial Intelligence & Machine Learning Intern	Jun 2025 - Jul 2025
Worked on AI and ML concepts including data analysis and machine learning workflows.	
NIES Training Center / CIDC- New Delhi	New Delhi
Trainee (Software Development)	Dec 2023 - Apr 2024
- Completed software development training at Vindhya E-InfoTech Pvt. Ltd. - Gained practical exposure to software development processes and industry practices.	

PROJECTS

- Human and Metal Detector using ESP32-CAM with Bluetooth**
- Developed an IoT - based security monitoring system using ESP32-CAM for real-time image capture.
 - Integrated PIR sensor for human detection and metal sensor for identifying metallic objects.
 - Implemented Bluetooth communication for wireless alerts and monitoring.
- Electricity Price Prediction using Machine Learning**
- Developed a machine learning model using historical data for prediction analysis.
 - Performed data pre-processing, model training, and visualization to evaluate results.

EDUCATION

Malla Reddy Engineering College for Women	Hyderabad
B. Tech - Computer Science And Engineering (CSE)	Jul 2024 - Present
CGPA : 8.44/10	
TRR College of Technology	Telangana
Diploma - Electronics and Communication Engineering	Sep 2021 - May 2024
CGPA: 8.6/10	
Montessori High School	Telangana
SSC	May 2021
GPA: 10/10	

CERTIFICATIONS

- Cyber Security Internship Certificate: Edunet Foundation (AICTE)
- Artificial Intelligence & Machine Learning Certificate: Edunet Foundation (AICTE)
- Industrial Training Certificate: NIES Training Center

LANGUAGES

- ENGLISH: Professional
